▬▬▬ Profile

I am a master student studying **Computer Science** in DTU with a passion for software development, particularly in **front-end** development. I have **professional** front-end development **experience** at CVTE, and I also have a lot of on-campus development experience. I possess strong **teamwork** and **problem-solving** skills, have remarkable **adaptability**, and am willing to deal with challenges in **various tasks**. I am eager to continue growing and contributing in the field of software engineering.

▬▬▬ Education

2023–2025	**Master of Engineering in Computer Science and Engineering**, *Technical University of Denmark*
2024	**Exchange in Software Engineering**, *Aalto University*
2019–2023	**Bachelor of Engineering in Software Engineering**, *Southwest Petroleum University*

▬▬▬ Professional Experience

2022 **Full-time Front-end Intern**, *CVTE Guangzhou, Tianzhou Cloud Low-code Platform Department*

Project **WULI-Antd-mobile**, *Secondary packaged UI components library based on Antd-mobile*
Keywords: Standard Unified, HTML, JavaScript, **React.js**, **Unit testing**, Low-coupling, Git, **Scrum Framework**, **Team Work**, **Multi-terminal Adaptation**, UI Components.

Applied by **all** technical departments of CVTE, **reducing** about **80%** of the multi-end **adaptation problems**.

▬▬▬ Extracurricular Experience

Project **NewsHunter**, *An AI featured news website.*
Keywords: HTML, JavaScript, **React.js**, NextUI, Git, **Masonry Display**, **Account Management**, **LLM chatbot**, Git, Docker, **Data Crawling**, Firebase, **tailwind**, **Redux**.

Project **IPortfolio**, *A portfolio editing website with various templates provided for users.*
Keywords: HTML, JavaScript, **React.js**, MaterialUI, Next.js, **Draggable Canvas**, Git, Docker, **tailwind**, **Redux**, **Account Management**, **static resource upload and storage**.

▬▬▬ Professional Skills

Programming Languages: C, Java, JavaScript, Python, SQL

Front-end Technologies: HTML, CSS, TypeScript, Vue, React, Redux, Tailwind

Other Skills: Git, Linux, Scrum Framework, Data Scrawling, Docker. . .

▬▬▬ Activities and Awards

2020–2022	Outstanding Student Scholarship: **The Second Prize (6%)** twice and The **Third Prize (9%)** once
2020	Lan Qiao Cup Competition: **The Second National Prize** of Group A
2021	Bochuang Cup Competition: **The Second National Prize** of Embedded Artificial Intelligence
2020–2022	**Leader** of Embedded Studio: Undertook weekly teaching courses on algorithms for 30 freshman team members

▬▬▬ Language Skills

Chinese	Native speaker
English	Fluent in writing, speaking, listening, and reading
Danish	Still learning
